The online session that was conducted for "positive psychology" was very useful. It was taught with interesting examples which was connected with every day lives. This aided us to learn and explore this branch in a better way.

Psychotherapy

II MSW

The online session has benefited all of us very effectively. The therapies were taught in a simple and understanding manner so that we could apply the theories into the practical setting as well. I received a clear picture of how to use those therapies to the patients.
