AIM AND SCOPE

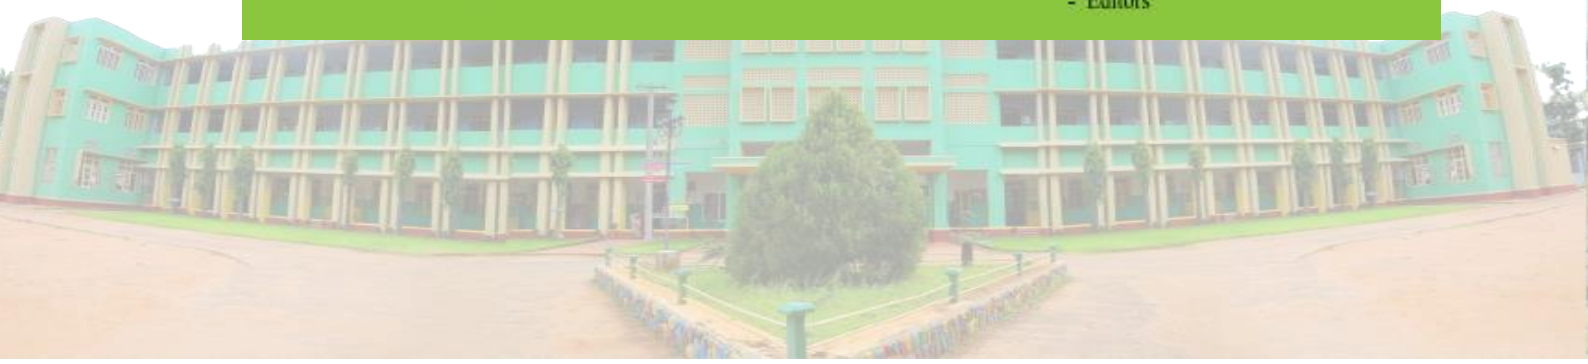

Crossian Resonance, the biannual, multidisciplinary peer- reviewed and refereed national journal launched in June 2010, strives to reach research scholars from all directions and various cross-sections of society providing a platform to resonate scientific finding. It aims to foster the spirit and aspirations of the academics and to promote a research culture among the erudite. The sustainability and success of the research journey is a step ahead in the 50th milestone of our institution playing a strategic role and nurturing the fruitful service of quality and need-based education.

The journal has provided an opportunity and space to the Crossian scholars, Professors and research guides of our institution and other institutions at national and international levels. This little, yet, vibrant reverberation of intellectual sharing will definitely generate new knowledge and ignite and unleash power to re-search within the visionary researchers.

Crossian Resonance strives to keep up the standard from the first issue and all the papers published in this issue were assessed by competent referee editors and were recommended for publication. This journal is committed to the development and regeneration of the nation with the scope of providing an open and common platform to launch a united vision and empowerment of innovative knowledge.

May this endeavour grow and remain evergreen like an olive tree to create renewed awareness, dimensional consciousness and enlightenment.
