5.4.2 Alumni contributes and engages significantly to the development of institution through academic and other support system

The institution places great importance on the continuous improvement of our curriculum, ensuring it remains relevant and effective in preparing students for their future careers. A vital part of this process is the invaluable feedback we receive from our esteemed alumnae. Having navigated the professional world successfully, their insights and experiences provide a practical perspective that is instrumental in refining our educational programs.

Every year, our alumnae generously share their feedback on the certificate courses and overall curriculum, highlighting the strengths and suggesting areas for enhancement. This collaborative approach ensures that our curriculum evolves in alignment with industry trends and demands. Their suggestions have led to the introduction of new courses, the updating of existing ones, and the incorporation of contemporary skills and techniques that are essential in today's competitive landscape.

This dynamic exchange not only keeps our curriculum cutting-edge but also strengthens the bond between our current students and alumnae. It fosters a culture of mentorship and continuous learning, where former students actively contribute to shaping the educational journey of new generations. By valuing and incorporating alumnae feedback, we ensure that our students are well-equipped with the knowledge and skills necessary to excel in their chosen fields.
