to
2023-2024

7.1.3 Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste

MoU:

The Memorandum of Understanding is signed between Vilraay Computers, Nagercoil and Holy Cross College (Autonomous), Nagercoil on 11th April 2022. The sole purpose of this MOU is to dispose the non-degradable e-waste of Holy Cross College Campus as the scrap and the payment will be settled before handing over. The period of agreement is from 11-04-2022 to 31-03-2025.

Holy Cross College (Autonomous), Nagercoil is an academic higher Educational Institution, having its registered office and College located at Roch Nagar, Kurusady, Nagercoil – 629004, Represented by Rev.Dr.Sr.Anne Perpet Sophy, Principal, Which Expression shall unless repugnant to the context mean and include, its legal heirs, Successors and assign of Second Party

1. Objectives

The Parties have agreed to Cooperate promote sustainable development for ewaste management system.

1. For the Holy Cross College termed as second Party an objective of creating sustainable ewaste management in its campuses by disposing the non degradable waste as the Scrap. The second party enters in this agreement for the college at Holy Cross College Campus.
2. For Vilraay Computers to associate with in areas of e waste management of the second party through the purchase of the ewaste in the form of scrap computer parts like Monitor, Mother hard, SMPS, Batteries etc.

II. Scope of Agreement

This Memorandum of Agreement entered between the Vilraay Computers (referred as the First Party) and the Second Party is for Sole Purpose of e waste management with the purchase of the Scrap from the Second party's premises at Roch Nager Campuses. The Parties here to agree to jointly play an effective role as partners for promoting the ewaste management system for the campus

III. Terms of the Agreement

1. The Second Party will prefer the first party for the sale of scrap available in the campus of the Second party. Second party will collect and do the ewaste

- / Scrap. It will be stored in the campus storage systems convenient for the first party to transport to their processing centres.
2. The first party will collect the ewaste in the specific storage centre in the campus of the Second party and will be responsible fully for the processing of it as per the norms of the government / authorities.
 3. The first party is entitled with the ownership of the scrap, after it is sold to the first party and have the authority to sell it or its parts to anyone concerned with or use it for further recycling process.
 4. The first party will collect the 'scrap/ ewaste in regular intervals or as informed by the Second party.
 5. The authorized persons/ employees of the first party will be permitted to enter in campus for sorting the scrap under the supervision of the staff of the Second party or request.
 6. This agreement can be renewed as per the request from any of the parties in written format
 7. The updated price details of the scrap items will be update/ fixed at the time of actual transaction as per the market standards
 8. The payment will be settled before handling over the Gate permission.

IV. Termination of the Agreement

This Memorandum Of Agreement can be terminated by both or any of the parties or written request to the other Two month in advance. The termination will be applicable only on the settlement of dues if any.

V. Period of Agreement

The Period of Agreement is for Three consecutive years (2022&2023, 2023&2024, 2024&2025) ie, 1/4/2022 to 31/3/2025

In witness whereof the parties have signed the Memorandum Of Understanding on the day, month and year first here in above mentioned

Suggested Treatment Technology

The effluent line will have the following treatment systems:-

Outlet from lab Pumping to →Flocculation tank →Settling tank →Bottom sludge to sludge drying beds→ Over flow to filter feed tank →Treated water over flow to out let

DESIGN BASIS:-

The proposal is for a wastewater treatment plant for the disposal of wastewater generated in the complex with the inlet characteristics as furnished by the customer

Total Design Capacity of Treatment: **1000 Litres/day**

Expected characteristics of the influent water to the treatment system will be as follows

Sl. No.	Parameter	Effluent Inlet	Unit
1.	Flow	900	Litres/day
2.	pH	8.0 to 11.0	
3.	Temperature	< 38	Degree C
4.	Suspended solids	100	mg/l
5.	BOD	300 to 600	mg/l
6.	COD	1000 to 1500	mg/l

Characteristics of the Treated Effluent with DMF outlet

The treated effluent will meet the following levels

Sl. No.	Parameter	Out let characteristics	TNPCB Norms	Unit
1.	Flow	900		Litres/day
2.	pH	7.0 to 8.0	6 - 9	
3.	Temperature	< 38		Degree C
4.	Suspended solids	20	< 30	mg/l
5.	BOD	< 30	< 30	mg/l
6.	COD	< 250	< 250	mg/l

PROCESS DESCRIPTION:-

Coagulation and Flocculation

The flocculation takes place in tanks equipped with a slow stirrer with blades, or directly in the tubes which feed the successive flotation phase. The object of this phase is to favour the separation of the suspended solids and colloids in the water, by means of neutralization of the electric charges of the suspended solids which, interacting between themselves, prevent separation and slugging. To reach this object nutrient salts are used, successively polyelectrolyte is dosed to improve aggregation in sludge flakes and to favour slugging of suspended solids, grouped in the form of sludge flakes. The separation of sludge flakes and water takes place in decantation-basins or tanks.

Settling Phase

The settling phase is that allows the settlement of sludge flocks with a consequently good separation between clean water and sludge. The sludge flocks settled at the hopper bottom is removed to drying beds, while the supernatant overflows to the treatment holding tank facility or directly drained.

Flocculation Tank

OUR SCOPE OF WORK & SPECIFICATIONS FOR SUPPLYING EQUIPMENTS

1. Raw water feed pump:

Qty	-	1 Number
MOC	-	CI
Motor power	-	1 HP
Make	-	Lakshmi/Kirloskar/Equal ant
Supply	-	Hayman

2. MS Epoxy painted Flocculation Tank – Motorised Stirrer:

Qty	-	1 No.
Stirrer MOC	-	SS 304
Gear Box MOC	-	CI
Motor Power	-	0.5 HP
Supply	-	Hayman

3. MS Epoxy painted Conical settler Tank

Qty	-	1 No.
Supply	-	Hayman

4. Chemical dosing pump

Qty	-	1 No.
Model	-	Diaphram
Supply	-	Hayman

5. MS Epoxy painted Filter feed Tank

Qty	-	1 No.
Supply	-	Hayman

of Erection/Commissioning without compromising the Performance of the system
 Note- 3 : Expenses for Civil, , Transport, Shed and Electrical works.
 Waste water Collection Tank, Treated water collection Tank , Plat form for the erection of ETP Pre Fabricated unit
 (8 Feet x 6 Feet), PVC pipe ,Electrical Items) **Customer scope**

Terms and Conditions:-

Delivery : 2-3 weeks from the date of work order along
 With 100% advance
 GST : 18%
 Freight To Pay (Erode to Nager coil)
 Erecting & Commissioning : Included
 Validity : 15 Days.

Warranty:

12months from the date of Erection or 18 months from the date of supply whichever is earlier.
 This warranty includes only inherent manufacturing defects; it does not cover any replacement for normal wear and tear.

SCOPE OF EXCLUSIONS:-

1. All civil/electrical works
2. Collection or treated water tank if any
3. Water, Chemicals and Lubricants required for Erection and Commissioning to be supplied at free of cost.
4. Plant Room & Shed.
5. Lighting arrangements and generators if required during erection work.
6. Materials will be delivered immediately after inspection from our factory.
7. For unloading the materials, equipments, tools, except ground floor will be your scope.
8. Crane for lifting the materials.
9. Separate room to store the materials.
10. Security for the storeroom.
11. During commissioning we will depute our engineer for the same and we require an Operator to operate the plant.
12. Decent boarding and lodging during erecting and commissioning for our engineers
13. Treated Water Pump & Pipe Line from out Final Treated Water Tank.
14. Any other things which is not mentioned apart from our proposal.

E-waste MOU

The memorandum of understanding is signed on 4th April 2019 between Vilraay Computers and Holy Cross College (Autonomous), Nagercoil. The sole purpose of this MOU is to dispose the non-degradable E- waste of Holy cross college with bye back policy. The period of agreement is from 2019 to 2022.

1. For the Holy Cross College termed as 2nd Party an objective of creating sustainable e waste management in its campuses by disposing the non - degradable waste as the Scrap. The 2nd party enters in this agreement for the college at Holy Cross College Campus.
2. For Vilraay Computers to associate with in areas of e waste management of the 2nd party through the purchase of the ewaste in the form of scrap computer parts like Monitor, Mother hard, SMPS, Batteries etc.

II. Scope of Agreement

This Memorandum of Agreement entered between the Vilraay Computers (referred as the First Party) and the Second Party is for Sole Purpose of e waste management with the purchase of the Scrap from the Second party's premises at Roch Nager Campuses. The Parties here to agree to jointly play an effective role as partners for promoting the ewaste management system for the campus

III. Terms of the Agreement

1. The Second Party will prefer the first party for the sale of scrap available in the campus of the Second party. Second party will collect and do the ewaste / Scrap. It will be stored in the campus storage systems convenient for the first party to transport to their processing centres.
2. The first party will collect the ewaste in the specific storage centre in the campus of the Second party and will be responsible fully for the processing of it as per the norms of the government / authorities.
3. The first party is entitled with the ownership of the scrap, after it is sold to the first party and have the authority to sell it or its parts to any one concerned with or use it for futher recycling process.

4. The first party will collect the scrap/ ewaste in regular intervals or as informed by the Second party.
5. The authorized persons/ employes of the first party will be permitted to enter in campus for sorting the scrap under the supervision of the staff of the Second party or request.
6. This agreement can be renewed as per the request from any of the parties in written format
7. The updated price details of the scrap items will be update/ fixed at the time of actual transaction as per the market standards
8. The payment will be settled before handling over the Gate permission.

IV. Termination of the Agreement

This Memorandum Of Agreement can be terminated by both or any of the parties or written request to the other Two month in advance. The termination will be applicable only on the settlement of dues if any.

V. Period of Agreement

The Period of Agreement is for Three consecutive years (2019&2020, 2020&2021, 2021&2022) ie, 1/4/2019 to 31/3/2022

WASTE MANAGEMENT SERVICE AGREEMENT

This waste management service agreement is made and executed on this date 14.02.2023 between

CLIENT

HOLY CROSS COLLEGE (Autonomous)
Affiliated to M.S. University, Tirunelveli
Nagercoil - 629 004, Tamil Nadu, India

SERVICE PROVIDER

Mr. P.T. RAMESH
P.T.R. Shop, Kurusady,
Nagercoil - 629 004, Tamil Nadu, India

As per this waste management service agreement,

The Service provider agrees to collect and dispose of waste products such as papers, cardboards, bottles, plastics, e-wastes and confirms that he will be responsible for tools, equipments, labor and manpower to achieve this.

Also confirm that he will not dispose the collected wastes in sewer, rivers, swamps and locations that are nuisance to the public.

The client needs to make sure that all the disposable waste are kept in an assigned area/ room and will bring to the on-time notice of the Service provider for safe disposal.

This agreement may be amended in writing by mutual consent of both the parties IN WITNESS whereof, the undersigned parties have agreed and executed this document.
