## 7.3.1 Portray the performance of the Institution in one area distinctive to its priority and thrust

### ICT INTEGRATED TEACHING LEARNING

ICT-integrated teaching and learning enhances the educational experience by incorporating digital tools and resources, making learning more interactive and accessible. This approach fosters engagement and prepares students for a technology-driven world.

The year 2020-21 accelerated digital transformation and fostered a stronger appreciation for knowledge management among faculty and students of the institution. This was demonstrated through 5 international webinars and 54 national webinars. The learning process was further enhanced by 10 regional webinars, 52 endowment lectures, and association meetings. To engage students during the lockdown, 49 E-quizzes were conducted. All these knowledge-sharing initiatives were carried out with the primary aim of empowering women.
